Bern, April 2021

Bern Cancer Research Cluster (BCRC) – Annual Cancer Research Workshop/Retreat

KSL Root Nr. 472914

Organizers:

**Group leaders of the BCRC, alternating**

Research groups with UniBe and BCRC affiliation. Participating groups in 2021: **DBMR:** D. Stroka, Y. Zimmer, M. Medova, R. Peng, T. Marti, M. Kruithof-de Julio, M. Rubin, M. Bernasconi, Tata Nageswara Rao. **Pharmacology:** G. Konstantinidou, S. von Gunten. **Medical Oncology:** U. Novak. **Institute of Pathology:** E. Vassella, I. Zlobec, M. Tschan, A. Perren/I. Marinoni. **Institute of Anatomy:** V. Djonov. **Vetsuisse:** S. Rottenberg. **TKI:** R. Lyck. **Nuclear Medicine:** A. Rominger/K. Shi/E. Gourni

**Goals and Topics:** Showcasing the current research projects of the different cancer research groups in Bern. Allowing time for networking, brain storming and discussing collaborative projects.

**Organization:** This one-day workshop is organized by BCRC group leaders.

**Venue:** Institute of Pathology

**Time:** Fall

**Duration:** One-day event

**ECT credits:** 0.5 (*with presentation*)

**Registration:** Via KSL ([https://www.ksl.unibe.ch/KSL/home](https://www.ksl.unibe.ch/KSL/home)) and e-mail to mario.tschan@pathology.unibe.ch.
LDHB mediated lactate utilization is a metabolic requirement of tumor initiation in NSCLC.
2nd Bern Cancer Research Retreat October 15, 2020
Zoom

16:45-17:00 Annaunziata di Domenico (Perren/Marmoni group)
Epigenetic landscape of Pancreatic neuroendocrine tumors.

17:00-17:15 Marta De Menna (Kruithof de Julio group)
Organoids and the Translational Research of Urological Cancers.

17:15-17:30 Karolina Niewola-Staszewska (iONCTURA, “sponsor lecture”)
Developing molecules that individually harness the combined effect of immune-mediated and direct anti-tumour activity.

17:30 Awards for “best presentation” at the retreat and “best poster” at DBMR Day of Research 2019
