Poster Flash Talk*:

Time: 2 minutes total (includes introduction and final words – think of this as an “advertisement” for your poster). Your slide will be uploaded on ConfTool by Wednesday, June 21, midnight (ConfTool program settings). Your slide and those for your session will be concatenated by the GCB.

The final presentation will be managed by the technical support team who will also be responsible for advancing the slides during the presentations.

***You will also have a poster to display. These will be hung Wednesday afternoon and remain hanging throughout the symposium on Thursday, June 29.**

Format:

1. One (1) Powerpoint. PPT Format (Keynote and Pdf not accepted)
2. Do not use gifs, animations, or special effects (Focus on your message)
3. Do include the Poster number and location of your poster on your slide
4. Do use the following naming convention when saving your slide

Family Name_Given Name_ImmatriculationNumber_Poster Number

E.g., Hufnagel_Charles_20_400_600_Poster A-101

The goal:

1. Actively stimulate the audience to come view your poster sessions
2. Focus attention on the main topic of your research
3. Show main findings of your project only—not the complete poster (which will be available in the poster session)

Upload on ConfTool by **Wednesday, June 21** by midnight (ConfTool program settings)

Poster

All presenters will be available at their poster during the poster session.

Posters should be standard poster size (A0), portrait only, and printed and ready to hang by Wednesday, June 28, at 12:00 pm (noon/midday).

You will be contacted with more detailed information on when and where to deliver the poster by mid-June 2023.
